DROP-IN SKID-RESISTANT LINER

STK LLC, Lemont Furnace, Pa., presents its Line-A-Bed SR™ bedliner molded of durable, high-density polyethylene with black finish. Skid-resistant surface on all models helps keep loads secure. Molded-in supports enable two-tier stacking and the high-ribbed floor pattern promotes drainage and creates additional cushioning against denting.

SPRAY-ON BEDLINER REPAIR

Line-X Protective Coatings, Santa Ana, Calif., offers its ReNew™, a bedliner enhancement system used to repair any brand of spray-on bedliner. Line-X Renew is a proprietary surface treatment that adheres to any polyurethane and polyurea coating, creating a permanent bond to the original bedliner. Renew completely resurfaces the entire bed with Line-X's surface texture repairing, and restores the bedliner to its original condition.
